"Our roles have mainly consisted of developing relationships, understanding needs and ongoing client management. These are the areas we enjoy, where we can achieve results for clients, and they perfectly align with our new responsibilities with Target Training," Allen said. "We are currently managing students across Victoria under Australian recognised qualification arrangements, and we will continue to do the same with Target Training. The key point of difference will be high quality roll out of workshop training and the tailored learning solutions. We are delighted to join Louise in this business as her depth of experience in the skills qualification sector is second to none".

"Delivery of Target Training services in Victoria and over the past decade has been localised according to businesses we were already servicing. Our trainer/assessors are located all over the state in order to meet the needs of the local businesses. With a global tightening on expenditure, year on year, these local businesses need to continue to grow and continue to maximise their profits, so it presents ideal timing for us to work with their management at both local and national levels," said Louise Targett

"Both Allen and Mary come to us with hands on business experience supported by formal qualifications in the area of Education. This comes as ideal timing for us to work together in rolling out high quality Accredited and Non-accredited programs".
